

Electoral division: **Church Stretton and Craven Arms**

Name of Candidate: **Mark Morris**

Party or description: **Independant**

1. How will climate change affect the county of Shropshire and what, in your view, are the urgent actions that the Council needs to take?

Flooding

Ditches, land drainage and road drains need keeping clean

2. If elected, will you vote to include climate change issues in the list of the Council's top ten priorities?

Yes. I support all alternative tech

I think all councillors should have a visit to Machynlleth

3. What further steps should the Council take to raise public awareness and educate people about environmental issues so that they can achieve sustainable lifestyles?

I feel that there should be more open and let the public know. People see wind farms but don't know output etc

4. What ideas do you have to help people in villages to live, work and stay there so that they are not merely dormitory or commuting satellites?

If affordable houses had been built in each village this would sustain village shops, rural transport (public), village post offices, and village school.
